Taghreed Mohammed ALmalki

Taghreedalmaleki@gmail.com 0560466730 Jeddah,Saudi LinkedIn

PROFILE

Information Technology student with a focused interest in cybersecurity and digital forensics, committed to strengthening skills in securing systems and networks through hands-on learning, academic coursework, and technical projects, with a particular focus on incident response and threat analysis.

EDUCATION

King Abdulaziz University | Saudi Arabia 2023 – present
Bachelor's degree in Information Technology
GPA: 4.77

PROFESSIONAL EXPERIENCE

Boat Monitoring System 09/2025 – 12/2025
Developed a boat detection system for the Municipality of Jeddah, applying Agile methodology and software engineering practices including requirements analysis, UML modeling, modular architecture, and system validation.

PROJECTS

Boat Monitoring System 04/2025 – 05/2025
Developed a boat detection system for the Municipality of Jeddah using Agile methodology

User interface for shell operations in Windows OS. 09/2025 – 12/2025
A Shell interface program that can execute Linux commands on behalf of the end user.

COURSES

Certified Digital Forensic Professional | INE 11/2025 – present
studying the eCDFP certification from INE and developing my digital forensics skills through hands-on learning.

Incident Handling & Response Professional | INE 11/2025 – Present
studying the INE eCDFP certification and strengthening my digital forensics skills through hands-on practice.

CERTIFICATES

Cybersecurity Training Program
KAUST Academy with NCA

ISC2 | Access Control Concepts
an online course authorized by ISC2

Introduction to Cybersecurity Essentials
an online course authorized by IBM

ISC2 | Security Principle
an online course authorized by ISC2

ISC2 | Security Operations
an online course authorized by ISC2

Illinois | everyday leadership
an online course authorized by Illinois University

SKILLS

Technical Skills
- Networking Fundamentals & Operating Systems
- Cybersecurity Fundamentals
- Incident Handling & Response
- Digital Forensics Foundations
- Vulnerability & Threat Concepts
- Scripting & Programming
- Software Engineering (Agile, UML, Requirements)

Soft skills
•Problem solving
•Time management
•Leadership
•Teamwork
•Learning & Adaptability
•Work ethics & professionalism
•Attention to detail
